RoboMate

EXECUTIVE OVERVIEW

RoboMate Cloud Automation

Turning cloud complexity into actionable insights and repeatable automation.

robomatecloud.com

WHY ROBOMATE

From scattered effort to one repeatable method

Today

- ⚠ A different console and report format for every cloud and domain
- ⚠ Security and compliance evidence assembled by hand, already dated
- ⚠ Scopes, estimates and deployments rebuilt for each customer

With RoboMate

- ✓ One console and one method for 8 platforms
- ✓ Findings and 18-standard compliance reports from every run
- ✓ Ready scopes, man-day estimates and proven automations

COVERAGE

Every platform your customers run

Five public clouds

Azure, AWS, Oracle Cloud, Google Cloud and Huawei Cloud.

Microsoft 365

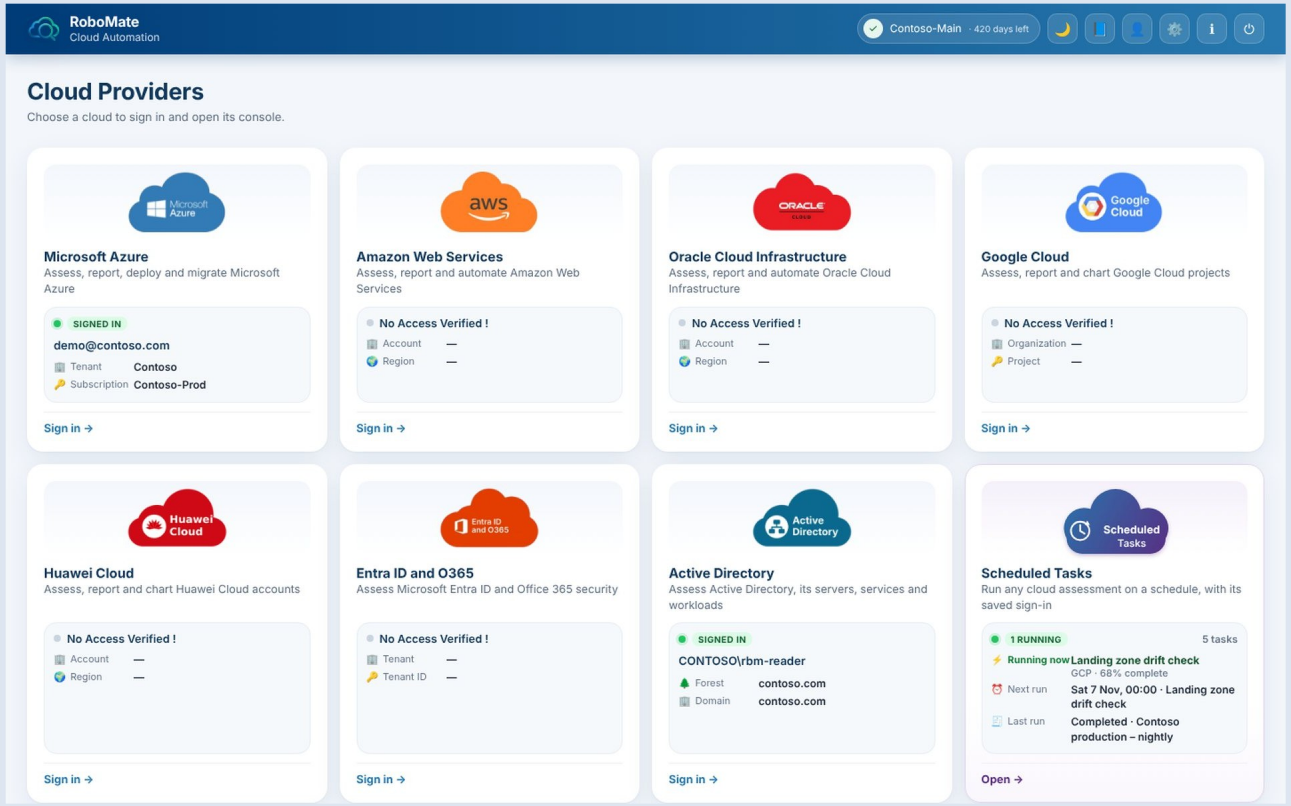

Entra ID and Office 365, including Intune.

On-premises

Active Directory and the Windows Server estate.

On a schedule

Any of them, run automatically.

WHAT IT DOES

Four outcomes from one platform

Assess

Inventory, topology, dependencies and business continuity for every platform.

Secure and comply

Ranked security findings and reports for 18 standards, with the fix.

Optimize

Spend analytics and concrete cost-saving actions across clouds.

Scope and automate

Scopes of work, man-days and proven deployments, guided by RoboMate AI.

IN NUMBERS

Breadth that replaces a stack of tools

8
platforms in one console

18
compliance standards for every cloud

3,306
requirements checked, rules updated daily

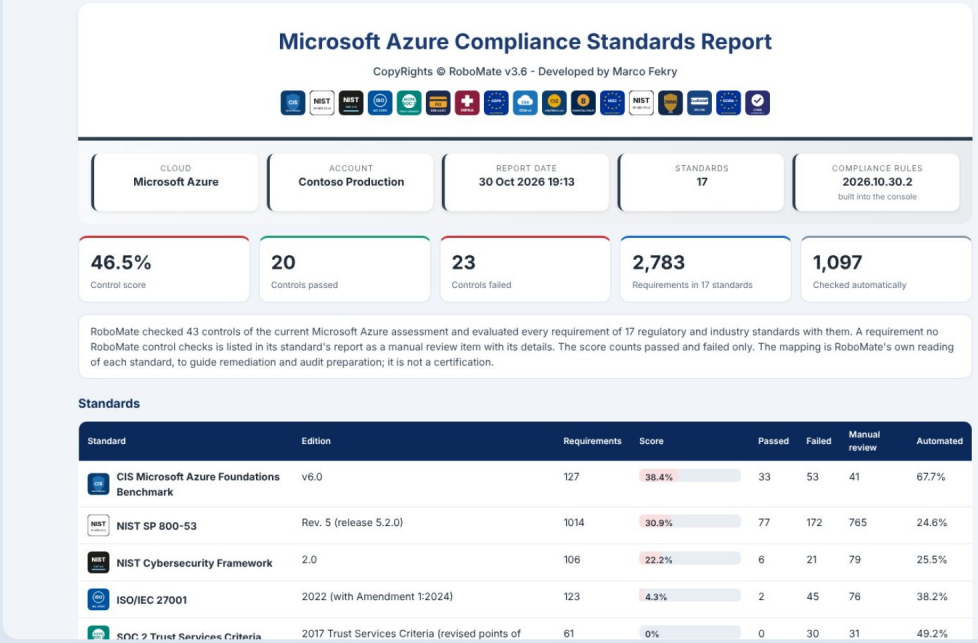

78
presales offerings in RoboMate Hub

SECURITY AND COMPLIANCE

Risk you can see, evidence you can show

Security: findings ranked by severity, each with the affected resource and the fix.

Compliance: CIS, NIST, ISO 27001, SOC 2, PCI DSS, GDPR, NIS2, DORA and more.

Screens show demo data · Compliance mapping guides remediation and is not a certification.

IDENTITY EVERYWHERE

Active Directory and Microsoft 365, covered

On-premises AD

Tiering, Group Policy, servers, Exchange, SharePoint, System Center, SQL.

Entra ID and Office 365

CISA baselines, Defender, Purview and Intune, with one app sign-in.

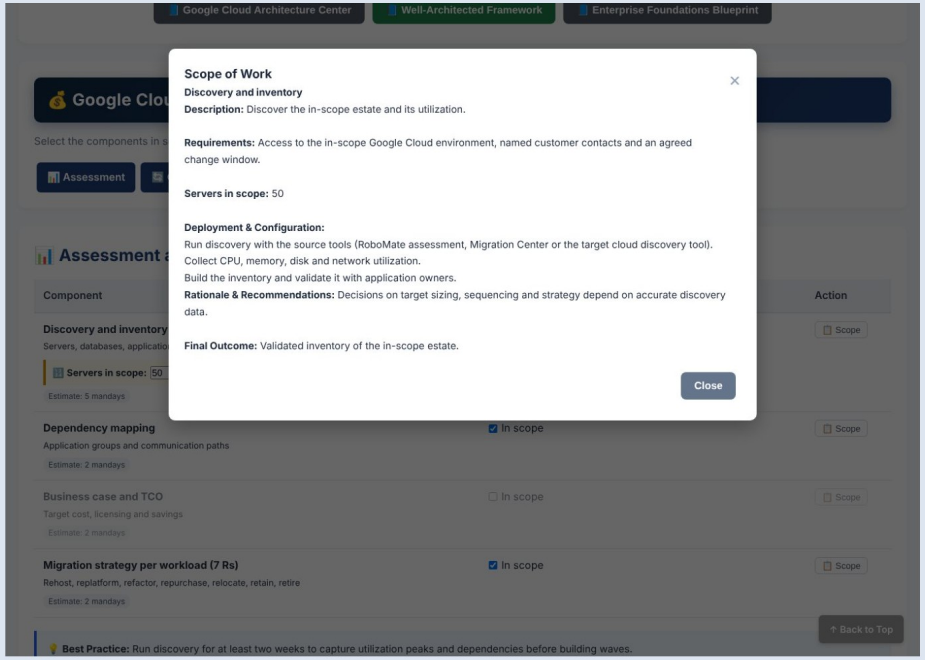

Least privilege

One account per assessment area, tested before every run.

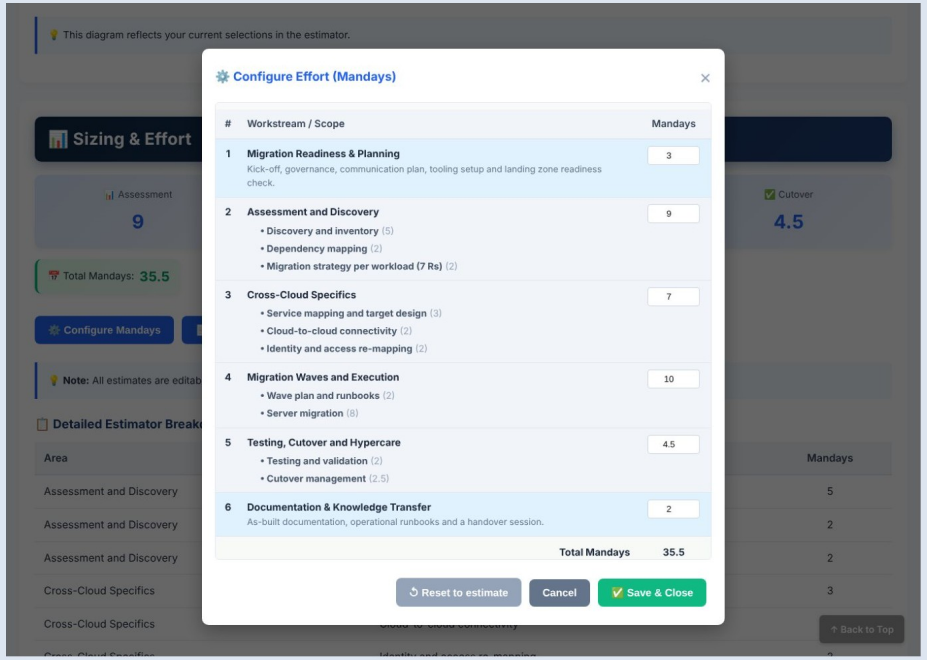

PRESALES WITH ROBOMATE HUB

Assessment in, costed proposal out

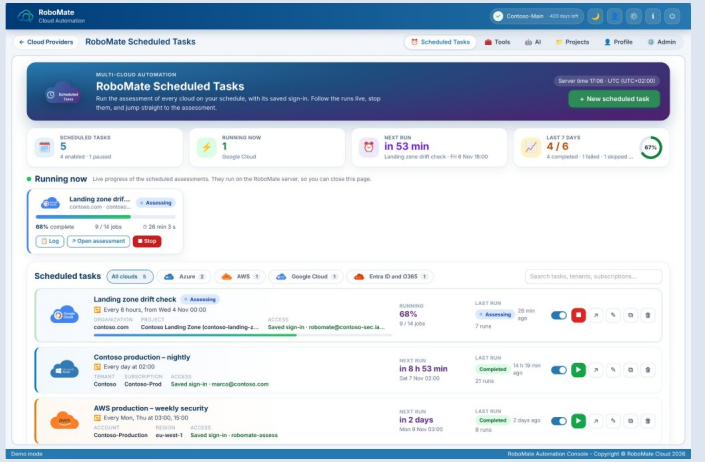

Scope of work per activity: requirements, deliverables and outcome.

Man-days per phase, sized from the customer's own data.

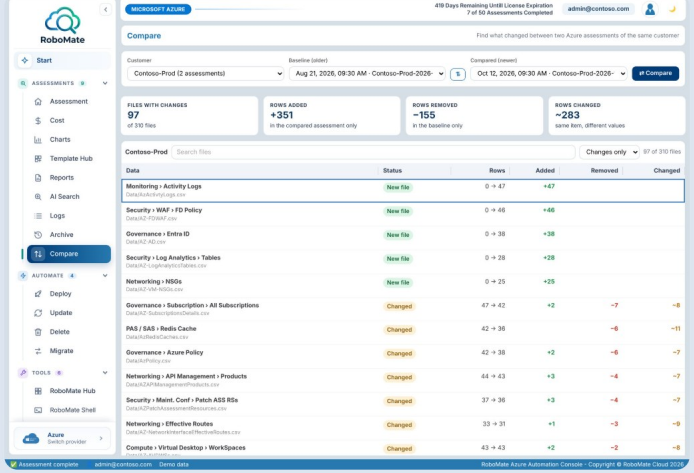

CONTINUOUS ASSURANCE

Schedule it, compare it, ask about it

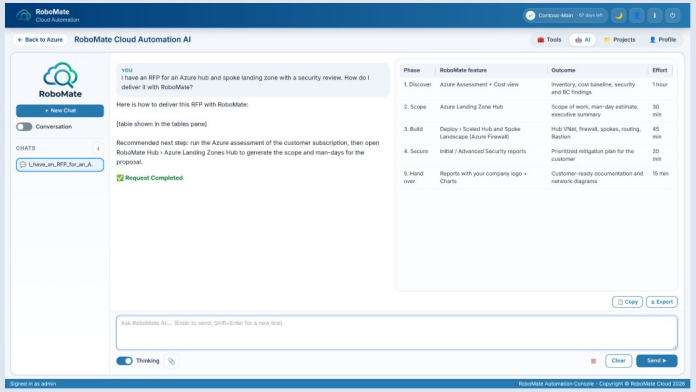

Scheduled Tasks

Any provider, once or on a repeating schedule.

Compare

What was added, removed or changed since last time.

RoboMate AI

Plain-language search and a cloud expert on call.

WHO BENEFITS

Value for every team at the table

Team	What they get
Leadership	One view of risk, compliance and spend across the estate
Presales and sales	Customer-specific scopes and man-day estimates, faster
Architects and engineers	Inventory, topology, dependencies and proven deployments
Security and compliance	Ranked findings and reports for 18 standards, with the fix
FinOps and operations	Spend analytics, savings actions and scheduled checks
Managed service providers	Repeatable assessments for every customer, compared over time

GET STARTED

From first sign-in to first report

1

Install

One Windows server, one installer.

2

Sign in

Connect each platform once.

3

Assess

Findings, reports and compliance.

4

Act

Scope, automate and schedule.
